Management System

Experience

Bharat Heavy Electricals Limited

Aug. 2024 - Oct. 2024

Front-End Developer Intern

Delhi

- Developed and maintained responsive web applications using HTML, CSS, JavaScript, and React.js, ensuring cross-browser compatibility and mobile-first design.
- Collaborated with senior developers to implement dynamic features and resolve bugs, contributing to a more seamless user experience and improved performance.
- Integrated RESTful APIs and coordinated with backend teams to ensure efficient data handling and real-time functionality across the application.
- Maintained clean, modular code with proper documentation and version control using Git, fostering team collaboration and codebase integrity.

Projects

CodeCrackr - A Web Based Coding Platform | HTML, CSS, JavaScript, React.js

- Built a responsive, interactive frontend interface for a coding platform inspired by LeetCode/HackerRank to help users practice real-world coding challenges.
- Designed a modern UI with categorized problem sections, dark/light mode toggle, and a dynamic sidebar menu for intuitive navigation.
- Implemented features like authentication pages (login/signup), scrollable problem sections, and smooth animations to enhance user experience.

Responsive Chat App - Frontend | HTML, CSS, JavaScript, React.js

- Developed a responsive, modern chat interface using React.js, with support for dynamic sidebar toggling, message animations, and dark/light themes.
- Designed the layout with mobile-first responsiveness, ensuring optimal performance and usability across devices and screen sizes.

Portfolio Website | HTML, CSS, JavaScript, React.js

- Designed and developed a fully responsive personal portfolio website to showcase projects, skills, and contact information in a clean, modern layout.
- Implemented smooth scrolling, animated transitions, and a user-friendly navigation system using React.js and CSS
 animations.
